

Dalrymple Residence

4622 E. Palo Verde Drive, Phoenix

Energy efficient retrofit of a 2,600 square foot single-family residence has resulted in 69% reduction in utility-supplied energy over four years.

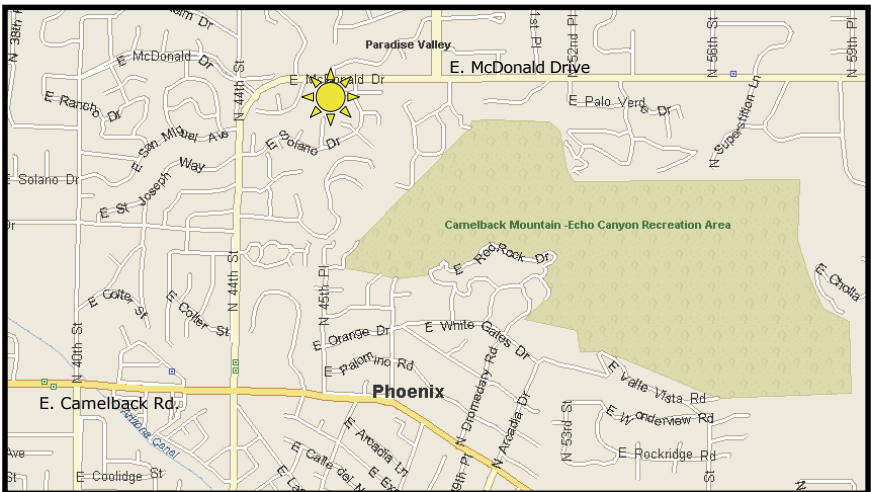

Notable features include:

- SEER 16 variable speed heat pump
- Solar water heating
- 3 kW solar PV system
- Tubular skylight
- Demand-activated hot water recirculation pump
- Reclaimed wood flooring
- High-efficiency pool pump
- Patio cover with retractable shade fabric
- Liquid pool cover to minimize evaporation
- Xeriscaping to replace grass
- Recycled FSC paper countertop
- Rainwater harvesting system
- Low-E fiberglass windows and doors throughout

DRIVING DIRECTIONS

From the intersection of Camelback and 44th Street: Go north approximately one mile on 44th Street. 44th Street curves right (east) and becomes McDonald Drive. Take the second right (south) onto 47th St. Take the first right (west) onto Palo Verde Drive. Residence is the 3rd house on the right.
