

AriSEIA Legislative News

The budget has been passed by the House and Senate and is in the Governor's hands. The logjam of bills that have been awaiting Senate action is moving rapidly, in fact, HB2429 is on today's COW calendar for the Senate. It should proceed quickly to final passage in the Senate, thanks to the many calls that have been generated, we seem to have the support we need for passage. Should, as we expect, the bill pass the Senate. We will need to go back to the House of Representatives for final approval. We will keep you advised on the bill's progress and continue to let you know how you can help. Thank you for your support and stay tuned for further developments.
